

LOWER DUNGENESS UNIT -- 150 acres

The Lower Dungeness Unit is located approximately 5 miles north of Sequim, Clallam County. A small parking area located on the north side of East Anderson Road just west of the Dungeness River contains an informational kiosk and restroom. Freshwater ponds are located in the large field below the parking area; however, the main hunting area is located on the tidelands of Dungeness Bay west of the river's mouth. Hunters are required to "walk-in" to the main hunting area, located roughly .55 mile north of the parking area. *Rivers End road is privately owned and cannot be used to access the tidelands.* Hunting at this unit is permitted on Wednesdays, Saturdays, Sundays, and federal and state holidays throughout the regular waterfowl season. *Hunting is restricted to five (5) WDFW-designated points that are available on a first-come, first-served basis. Details on this site's hunting rules and conditions, including a 15 shotgun shell restriction, are available at the North Olympic Wildlife Area / Lower Dungeness Unit webpage and on the informational kiosk. Hunting is prohibited at all WDFW-owned parcels (posted as a Safety Zone) along Towne Road.*

Scouting Report

Dabbling Ducks:

Moderate to high numbers of mallards, pintails, American and Eurasian wigeon, green-winged teal, and shovelers.

Diving Ducks:

Scoters, scaup, goldeneyes and buffleheads occur but tend to stay offshore.

Geese:

Canada and occasionally white-fronted.
